

Chapter 2: Java Operators

Arithmetic Operators:

Operator	Purpose
+	Addition
-	Subtraction
*	Multiplication
/	Division
%	Modulus
++	Pre/Post Increment
--	Pre/Post Decrement

Assignment Operators:

Operator	Purpose
=	Assignment
+=	Compound Addition
-=	Compound Subtraction
*=	Compound Multiplication
/=	Compound Division
%=	Compound Modulus

Relational Operators:

Operator	Purpose
==	Equal to
!=	Not equal to
<	Less than
<=	Less than or Equal to
>	Greater than
>=	Greater than or Equal to

Logical Operators:

Operator	Purpose
&	Logical AND
	Logical OR
!	Logical Not
&&	Short Circuit AND
	Short Circuit OR
?:	Ternary (if then else)
